

## *Environmental information for customers*

1. WIRECO Poland sp. z o.o. in Włocławek implemented an environmental management system in accordance with the requirements of ISO 14001:2015, based on the assessment of compliance with legal requirements and identified environmental aspects.
2. Supervision of environmental aspects is based on carrying out monitoring activities.
3. WIRECO Poland sp. z o.o. undertakes to comply with all applicable laws and regulations relating to the environment.
4. WIRECO Poland sp. z o.o. strives to minimize the negative impact on the environment in its operations at every stage of the product's life:
  - obtaining raw materials, technological materials, energy and packaging
  - design
  - production taking into account the best available BAT/BREF technologies
  - logistics and distribution aimed at minimizing fuel and energy consumption
  - recycling and disposal in accordance with local legal requirements
5. WIRECO Poland sp. z o.o., by means of the Instructions for Use, provides information on the customer's handling of the product at every stage of its technical life.
6. WIRECO Poland sp. z o.o. strives to reduce the consumption of raw materials and resources, as well as to minimize the waste and pollution generated as part of its operations.
7. One way to achieve the above is the proper management of returnable packaging. That is why it is so important for us to understand the customer and involve him in our activities.
8. WIRECO Poland sp. z o.o. supports international efforts to end the use of conflict minerals, the proceeds of which are used to promote violence and activities contrary to human rights.
9. WIRECO Poland sp. z o.o. promotes the development and implementation of technologies that reduce CO2 emissions and energy consumption, strives for continuous reduction of losses and applies logistics solutions with the lowest possible impact on the environment:
  - design and planning with maximum occupancy of production equipment
  - no use of lead in patenting processes
  - use of a closed number of steel grades
  - striving to use the smallest cross-section with the highest strength of products, which results in a reduction in the consumption of raw materials for their production
  - standardization of series of wires and cores and other components
10. Bearing the above in mind, WIRECO Poland sp. z o.o. also encourages each supplier to implement an environmental management system for compliance with the requirements of ISO 14001:2015.
11. After the end of use by the customer, WIRECO Poland sp. z o.o. products should be scrapped or disposed of in any other appropriate way, in accordance with applicable local regulations
