

## *Environmental requirements for subcontractors*

1. The subcontractor is obliged to comply with all applicable laws and regulations relating to the environment.
2. The subcontractor should strive to minimize the negative impact on the environment in his operations at every stage of the product's life.
3. The subcontractor should strive to reduce the consumption of raw materials and resources, as well as to minimize the waste and pollution generated as part of the business.
4. The subcontractor is obliged to ensure that the means of transport are kept in good technical condition and to meet the applicable emission standards.
5. The subcontractor is obliged to have the environmental protection permits or permits required by applicable law, which are necessary for the proper performance of the contract.
6. The subcontractor is obliged to carry out work while maintaining care for the natural environment.
7. All hazardous substances and mixtures used by the subcontractor during work for and on the site of WIRECO Poland sp. z o.o. must bear original and legible markings (pictograms) on their packaging.
8. The storage of hazardous substances and mixtures at the work site must be organized by the subcontractor in agreement with WIRECO Poland sp. z o.o. in such a way that they do not endanger the environment and people.
9. The subcontractor is obliged to have safety data sheets for hazardous substances and mixtures used in the course of the works.
10. The subcontractor is obliged to analyse the possibility of replacing hazardous substances with other substances not classified as hazardous to humans and the environment.
11. Waste resulting from work carried out by a subcontractor must be collected selectively as agreed with WIRECO Poland sp. z o.o.
12. The subcontractor remains the producer of waste generated during the works carried out by the subcontractor for and on the premises of WIRECO Poland sp. z o.o., in accordance with applicable law, and therefore is also obliged to remove them, unless the provisions of the contract provide otherwise.
13. The subcontractor is obliged to use on the premises of WIRECO Poland sp. z o.o. technically efficient machines and devices that meet all emission standards.
14. The subcontractor is liable for any possible environmental damage caused by its activities.
