
QUALITY POLICY

As a corporate organization of WireCo World Group, implementing the common principles of the Group Policy, we declare that the essence and priority objective of our Quality Policy is to constantly improve the quality of products and services that would take into account the expectations of customers and significant stakeholders, the offer of competitors, scientific and technical progress as well as economic aspects of our business.

The main directions of the quality activities performed are:

- conducting comprehensive, mutually beneficial cooperation with customers,*
- planning and implementation of activities preceded by an analysis of risks, threats and opportunities,*
- providing resources to achieve quality objectives,*
- purchasing materials and services of the required quality,*
- preventing of non-compliance products and services,*
- improving the qualifications of employees and production potential,*
- striving to increase customer and employee satisfaction.*

For the implementation of the Quality Policy, an Integrated Management System has been implemented, meeting the requirements of the ISO 9001:2015 standard.

Its scope covers the basic area of the Organization's activity, focused primarily on the production, packaging and sale of wires and steel ropes.

Taking care of the continuation of the long-standing tradition of a specialized and reliable manufacturer as well as high work standards, increasing quality of products and services, we undertake to meet the requirements applicable in our business and to continuously improve the implemented Integrated Management System.

This Quality Policy is communicated, understood and applied in the Organization and is available to external interested parties.
